**It is standard practice that mountain rescue/evacuation from the scene of an incident is normally provided locally by specialist mountain rescue teams, park rangers or the military. As part of your contingency planning, you should ensure that you have contact details for these services for the area you are operating in. Once a rescue is initiated, our nominated emergency assistance company can be contacted to arrange for you to be taken to a higher level of medical care or repatriated as deemed medically appropriate by the emergency service doctors.
